

Pipe - Rat Stop

**Specifications**

**General**  
 Used with ACO Pipe System. Used to prevent rodents from climbing up vertical stack. Includes access unit and can act as a vertical wall clean out. Made from AISI 316L. Resistant to thermal and dynamic shocks. Rodent-proof and sag-proof. Non-combustible. Double-lipped seal push-fit connection. Designed for gravity piping system with maximum working pressure of 0.5 bar. Socket clamps, NBR and FPM gasket material also available upon request. Socket clamp can increase maximum operating pressure to 0.7 bar. ACO recommends checking local plumbing codes prior to installation. Manufactured to EN 1124-1 and 1124-2.
