

ACO. creating
the future of drainage

PORTFOLIO

Classic Mini Dealership Mentor, OH

With the introduction of the BMW Mini brand to the American market, a stylish new dealership was built in Mentor, Ohio to showcase these vehicles from Europe. To prevent runoff from the hardstand surrounding the building onto the roads, two runs of trench drain was needed to intercept the water.

Project Design Brief

ACO's KlassikDrain KS100 with Type 46Q1 heavy duty, lockable, ductile iron grates was selected to provide an aesthetic solution that could withstand the constant movement of vehicles and car delivery trucks.

Benefits

- ACO KlassikDrain KS100 and 461Q ADA ductile iron grates provide Load Class E strength which is up to 134,885 lbs and 4,641 psi.
- The QuickLok® locking system built into the grates ensured they would remain in place with moving traffic but would be easy to remove for maintenance.
