

ACO. creating  
the future of drainage

## PORTFOLIO

### Dave Walter BMW Dealership Akron, OH

While renovating the dealership, Dave Walter BMW required a trench drainage system in the service area and car pick up/drop off area. The system was required to remove large amounts of liquids.

#### Project Design Brief

Ridley Pruitt specified and installed KlassikDrain K100S due to its compact size and clean lines which fit with the tile flooring.

#### Benefits

- Heavy duty and lockable Type 461 ductile iron grates were selected to provide an effective solution that could withstand the frequent movement of vehicles.
- The removable grates and minimal pipe work ensured easy and minimal maintenance.

### ACO Drain

KlassikDrain KS100 with Type 461Q Ductile  
Iron Slotted Grates
