

# ACO DRAIN

## University of Tennessee Chattanooga, TN

### PROJECT PORTFOLIO

**Product:**

***K200 KlassikDrain with ductile iron wave grates***

In order to extend the accessible walkway through the heart of the UTC campus, from Heritage Plaza to Oak Street, through the area nicknamed 'Cardiac Hill', a series of sloped sidewalks and steps with handrails were required.

A series of trench drain runs were required at the base of each run of steps to prevent heavy rains spilling across the sloped ramps.

K200 provided increased hydraulic capacity with the ADA compliant, pedestrian friendly grate that was also architecturally pleasing, to ensure the projects aesthetic requirements were met.

Several runs of K100 with matching wave grates were also used on the project.
