

ACO.

we care for water

PORTFOLIO

El Segundo Athletic Fields El Segundo, CA

El Segundo Athletic Club accommodates top of the line equipment and offers personal training, nutrition counseling, group classes, cardio and weight-training equipment.

Project Design Brief

When the sports complex's observation deck was being refurbished, a small perimeter trench drain system was required to drain the water runoff from the neighboring soccer fields. Furthermore, the trench drain had to be aesthetically attractive in order to complement the features of the sporting facilities.

Benefits

- The Type 276D ductile iron grate has an overall look that is ideal to fit in with the aesthetics of the surrounding area.
- The ductile iron grates comply with ADA legislation, an important consideration for public pedestrian areas.
