

# ACO DRAIN

**Granite Source  
Denver, CO**

## PROJECT PORTFOLIO

Product:  
Contractor:

PowerDrain S200K, 661Q ductile iron slotted grates  
E-Z Concrete and Granite Source - Lakewood, CO

Over 500 feet of PowerDrain S200K with 661Q ductile iron grates were chosen to handle the drainage needs inside the new granite cutting facility, at Grante Source.

ACO's Tech services department was able to assist with the layout and installtion support was provided.

Granite Source is a direct importer of granite and are a wholesaler. Their stones are acquired in blocks

from Brazil, India, Europe, and China.

ACO PowerDrain is a heavy-duty sloped trench drain system available in 4" (100mm) - S100K, 8" (200mm) - S200K and 12" (300mm) - S300K internal width for applications requiring the most rugged product.
