

# ACO DRAIN

## Fort Carson GSAB Maintenance Hangar Fort Carson, CO

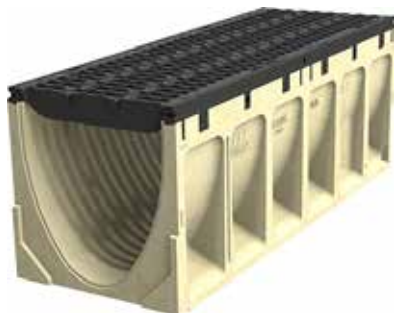

### PROJECT PORTFOLIO

Product:

PowerDrain S300K, ductile iron slotted grates

Contractor:

Swinerton Construction Company - Arvada, CO

Fort Carson Maintenance Hangar includes 118,00 square feet of maintenance facility for the 13th Combat Aviation Brigade at Fort Carson, Colorado.

Over 500 feet of PowerDrain S300K and ductile iron grates were used to provide proper drainage for the helicopter hangar.

ACO PowerDrain is a heavy-duty sloped trench drain system available in 4" (100mm) - S100K, 8" (200mm) - S200K and 12" (300mm) - S300K internal width for applications requiring the most rugged product.
