

ACO. creating

the future of drainage

PORTFOLIO

The American Veterans Disabled for Life Memorial Washington, D.C.

The American Veterans Disabled for Life Memorial in Washington, D.C. is the first memorial in the U.S. to honor disabled veterans. The Memorial is framed along the northwest and southeast perimeters with walls of Bethal White Vermont granite with two hand chiseled inscriptions from George Washington and General Dwight D. Eisenhower that underpin the Memorial's mission.

Project Design Brief

Along the base of these two walls is a run of trench drain to ensure pedestrian safety and to maintain the Memorial's aesthetics.

Benefits

- ACO KlassikDrain KS100 and stainless steel Type 447D grates which compliment the white granite. The grates provide Load Class B strength which is up to 28,101 lbs or 967 psi.
- The ADA compliant grates withstand traffic while remaining safe for pedestrians in wheelchairs or high heels.
