## PORTFOLIO

### The Promenade Shops at Orchard Valley Manteca, CA

Promenade Shops at Orchard Valley is a shopping mall in Manteca, California. The mall offers a range of restaurants and retail outlets.

#### Project Design Brief

When choosing a product for this project, the engineer considered the load rating and the aesthetics. ACO KlassikDrain K100 channel with a combination of galvanized steel and ductile iron grates were selected for the paved area. In the loading dock, the ductile iron grates were preferred.

#### Benefits

- The galvanized edge rail was ideal for the contractor to pour concrete.
- The ADA compliant ductile iron grates are able to withstand wear and tear from vehicles as well as being safe for pedestrians.
