

ACO DRAIN

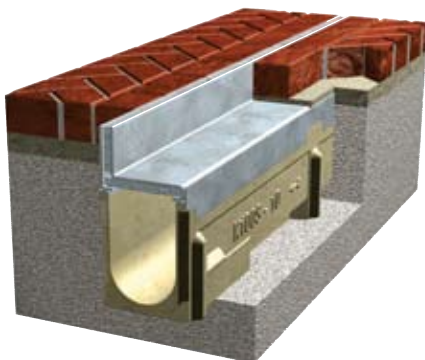

EMPAC Experimental Media & Performing Arts Center Troy, NY

PROJECT PORTFOLIO

Product:

Brickslot with K100S channel

During the design phase of this project, the architects decided that a discreet drainage system was needed to avoid compromising aesthetics. The architects used ACO's Technical Support to assist in the decisions regarding the trench drainage system.

as it is a discreet trench drain specifically designed for brick and stone pavers. The 3/8" flared slot not only blends in with the paving joint, but also prevents debris from being trapped and blocking the opening.

ACO Brickslot was the ideal solution
