

ACO. creating  
the future of drainage

## PORTFOLIO

### Legacy Village Beachwood, OH

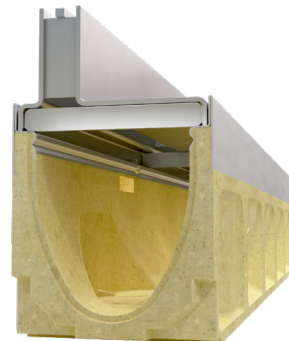

Legacy Village is an outdoor shopping facility in Beachwood, OH that features boutique style shopping, restaurants, and a beautiful outdoor campus. To keep the experience safe during the winter months, underground heating was installed on the walkways to melt away snow and ice.

#### Project Design Brief

A discreet trench drain was needed to remove the water, and the product needed to work well with brick pavers; ACO's Brickslot was able to fulfill both requirements. More than 2000' of ACO's Brickslot was used.

#### Benefits

- Brickslot is a discreet trench drain specifically designed for brick and stone pavers.
- The 3/8" flared slot is discreet and also prevents debris from being trapped and blocking the opening.
