

ACO. creating
the future of drainage

PORTFOLIO

Peppermill Hotel and Casino Reno, NV

Peppermill and Resort Spa Casino is a 15-story towered building that has over 1,600 rooms and 107,300 of convention space. In addition, the hotel is a 2 minute walk from Virginia Lake.

Project Design Brief

During the expansion and remodel of the Peppermill Hotel and Casino in Reno, the pool and garden equipment deck were refurbished. As part of the remodel a trench drainage system was added to avoid any slip hazards caused by rainwater and over spray from the pools water feature. The drainage system also needed to compliment the aesthetic of the high profile lounge hotel and casino.

Benefits

- Access for maintenance is via removable access trays filled with the same pavers, continuing the discreet and aesthetic look.
- The 3/8" flared slot is discreet and also prevents debris from being trapped and blocking the opening.
