we care for water

PORTFOLIO

Dollar General Dallas, TX

Dollar General is a major American retailer with over 15,000 stores around the country. The site provides low prices on America's most trusted items and brands.

Project Design Brief

Dollar General needed a water management system to compensate for flash flooding in one of their new Dallas facilities. Despite rain delays with clay-based soil, first-time StormBrixx® HD installers completed 6,000 ft³ in six hours.

Benefits

- StormBrixx® HD has a 95% void ratio and is light-weight making the system easy to install
- The system was installed in a few hours, thus speeding up the timeline needed to complete construction.
