PORTFOLIO

Horsehead Central School District Horsehead, NY

Horsehead Central School District, located in the state of New York, is one of three districts in Chemung County, which is located in the Southern Tier Region of Upstate New York. It has been recognized as one of the top 100 school districts in the United States for music education.

Project Design Brief

StormBrixx® SD was chosen as the best infiltration system because of its modular design, which allows the system to be configured in nearly any form while still being shallow enough to overcome the high water table and fulfill the parking facility lot load requirements. StormBrixx® SD was installed beneath the parking lot at a total volume of 26,971 cubic feet.

Benefits

- The StormBrixx® SD half layer meets HS20 loading conditions while minding the high water table.
- StormBrixx® SD system is lightweight and easy to assemble, cutting the installation time down to 5 hours.
