PORTFOLIO

Mountain America Credit Union Glendale, AZ

Mountain America Credit Union meets all of your banking requirements. Checking and savings accounts, loans, and personal finance advising are among the services offered.

Project Design Brief

The initial CMP design called for a 25% increase in the footprint length, eventually reaching onto major utility lines. Because StormBrixx® HD is 95% storage efficient, the complete 9,068 ft³ system fits into less space than the intended CMP size, saving the customer \$40,000 in relocation costs. The system uses four layers of StormBrixx® HD modules to generate the desired storage volume while fitting within the limited space available.

Benefits

- StormBrixx® HD has a 95% void ratio and is light-weight making the system easy to install.
