

ACO. creating  
the future of drainage

## PORTFOLIO

TruStile Doors, Inc.,  
Denver, CO

TruStile Doors is a manufacturer of high-quality, interior and exterior, MDF, wood, and glass doors for residential and commercial use.

### Project Design Brief

The engineer needed a stormwater retention system that could be installed without the need for stone for structural integrity. In addition, the solution needed to provide access for maintenance every 50' as required by the county's regulations.

### Benefits

- StormBrixx HD units provided a 40% reduction in total footprint vs. the CMP alternative.
- Patented access units can be placed anywhere within the matrix system.
