we care for water

## PORTFOLIO

### Greenville Call Center Greenville, SC

Diversity Inc. has named the Greenville call center one of the Top 50 (#18) Companies for Diversity 2020. The center has shown to be well-suited for everything from B2B outbound to inbound order taking and customer assistance

#### Project Design Brief

At the call center headquarters, ACO StormBrixx® HD was installed beneath three new parking lots. Invert parameters were produced by existing stormwater infrastructure, preventing the use of chamber/stone. StormBrixx® HD was the only HS25-rated system that could structurally withstand inverts and an 11' infill depth.

#### Benefits

- StormBrixx® HD has a 95% void ratio and is light-weight making the system easy to install.
