

Other ACO Self products

HexaLine

HexaLine is an innovative plastic residential trench drain systems. It offers simple and easy installation due to push-fit components.

HexaLine - Brickslot

HexaLine Brickslot is a discreet drainage solution for use with pavers. The slot blends in with paving joints giving an aesthetic solution.

GalaLine

GalaLine offers additional hydraulic capacity from a deeper channel. Designed for use around residential, office, and other light duty areas.

DrainLine 100

DrainLine can help to divert rainwater from driveways, paths and patios in order to protect buildings.

DrainLine 150

DrainLine 150 is a durable polymer concrete trench drain system for use around residential, office and other light duty areas.

PointDrain

PointDrains are ideal drainage solutions for small scale applications where problems with complex ground slopes are not an issue.

GrassGrid

GrassGrid reinforces grassed areas to allow vehicle parking and traffic without excessive wear and erosion.

Infiltration Line

The Infiltration Line relieves the sewer system by absorbing rainwater and releasing it gradually into the soil. This reduces the risk of flooding the public sewage system due to heavy rainfall events.

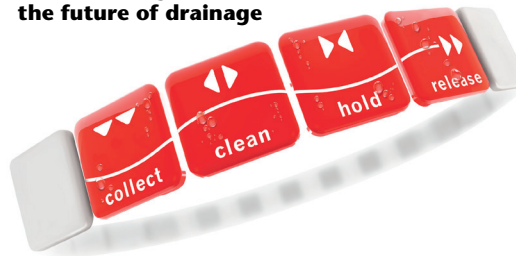

DrainMat

DrainMat is the ideal solution to protect entrances from water, snow, sand and everyday debris.

**ACO. creating
the future of drainage**

System Chain

ACO is a global leader in surface water management. With products to collect, clean, hold and release water; addressing all phases of the water cycle and supporting sustainable drainage (SD, SUDS), Low Impact Development (LID) and LEED principles.

DrainLine 150

*Polymer concrete
trench drain system for
light duty applications*

DrainLine 150

Applications

What is polymer concrete?

Polymer concrete is a versatile composite material produced by mixing mineral aggregate with a resin binding agent. Polymer concrete outperforms HDPE in its compressive strength, ability to withstand freeze-thaw cycles and adverse weather conditions, ensuring a longer service life.

Product Overview

DrainLine 150 is a durable polymer concrete trench drain system for use around residential, office and other light duty areas. It is a practical system for draining large amounts of water. Its polymer concrete construction offers excellent mechanical and thermal properties.

Suitable for pedestrian/light vehicle traffic applications such as:

- Driveways
- Patios
- Walkways
- Cart paths
- Light traffic parking areas
