

Other ACO Self products

HexaLine

HexaLine is an innovative plastic residential trench drain systems. It offers simple and easy installation due to push-fit components.

HexaLine - Brickslot

HexaLine Brickslot is a discreet drainage solution for use with pavers. The slot blends in with paving joints giving an aesthetic solution.

GalaLine

GalaLine offers additional hydraulic capacity from a deeper channel. Designed for use around residential, office, and other light duty areas.

DrainLine 100

DrainLine can help to divert rainwater from driveways, paths and patios in order to protect buildings.

DrainLine 150

DrainLine 150 is a durable polymer concrete trench drain system for use around residential, office and other light duty areas.

PointDrain

PointDrains are ideal drainage solutions for small scale applications where problems with complex ground slopes are not an issue.

GrassGrid

GrassGrid reinforces grassed areas to allow vehicle parking and traffic without excessive wear and erosion.

Infiltration Line

The Infiltration Line relieves the sewer system by absorbing rainwater and releasing it gradually into the soil. This reduces the risk of flooding the public sewage system due to heavy rainfall events.

DrainMat

DrainMat is the ideal solution to protect entrances from water, snow, sand and everyday debris.

ACO Self

HexaLine - Brickslot
Discreet slot drainage system

HexaLine - Brickslot

Applications

What is polypropylene?

Polypropylene is one of the most versatile polymers out there. It serves double duty, both as a plastic and as a fiber. As a plastic it's used to make things like dishwasher-safe food containers. It can do this because it doesn't melt below 160°C, or 320°F.

Looking for a heavier duty channel with the discreet, brickslot feature?

Check out the DrainLine 100 channel with either the plastic Brickslot or stainless steel Brickslot grate!

HexaLine Brickslot is a recyclable polypropylene slotted trench drain system that provides effective, yet discreet drainage in domestic paver or tile installation.

Access to the system for maintenance is through the removable cover on the corner unit.

Suitable for pedestrian/light vehicle traffic applications:

- Residential driveways
- Patios
- Walkways
- Doorways
- Pools

Accessories

Accessory pack includes:

2 - closing end caps

1 - vertical outlet

1 - leaf guard

Corner unit:

Allow up to four channels to connect.

* Requires 4" flex adaptor to fit to outlet pipe or use vertical bottom outlet adaptor on channel.
