

ACO.

we care for water

## PORTFOLIO

### Cherokee Country Club Atlanta, GA

Cherokee Town and Country Club (CTCC), which has two Atlanta, Georgia sites; the Town Club in Buckhead and the Country Club in Sandy Springs, has a thriving racquets program. Every year, members and their families travel to the courts for up to 50,000 games of tennis, platform tennis, and pickleball. Thousands of members, their families, and friends frequent the club for socials, shopping, meetings, and guidance.

#### Project Design Brief

The project required a drainage system that had ADA-compliant grates for the golf cart staging area. Over 300 linear feet of ACO's K100 have been installed with Type 476D Grates.

#### Benefits

- The DrainLok mechanism simply clips into the channel edge rail for rapid installation. DrainLok grates are also fitted with an anti-shunt mechanism that restricts unwanted grate movement when installed, improving durability and longevity of the system.

### ACO Drain®

KlassikDrain K100 with Type 476D  
Longitudinal Ductile Iron Grates
