PORTFOLIO

Graton Rancheria Casino Rohnert Park, CA

Graton Resort & Casino, just west of Rohnert Park, California, opened on November 5, 2013. The Federated Indians of Graton Rancheria own and run the casino. There are 3,000 slot machines, 144 table games, and a poker area inside the casino. It opened a 200-room hotel next door in November 2016.

Project Design Brief

This casino offers luxurious accommodations to its visitors, including, but not limited to, a zero-entry or "beach entry" pool. A suitable drainage system was necessary to ensure the safety of guests traversing the lavish pool area. The elegant perforated stainless steel grates and the KS100 were chosen for the surrounding pool area. A total of 584 feet of polymer channels by ACO were installed in and around the pool area.

Benefits

- The 451Q perforated stainless steel grates with the QuickLok® locking system by ACO meets ADA-compliance and are heel resistant.
