we care for water

PORTFOLIO

Kent County Sports Complex Frederica, DE

The Kent County Sports Complex is an all-synthetic-turf and multi-use sports complex located in Frederica, Delaware, developed to drive tourism and economic development in Kent County. Kent business and government officials have spent more than five years persuading the state, including DeIDOT, that the vacant land was worth developing as a sports tourism destination. With final approval, the development of the facility began right away.

Project Design Brief

The installation of a drainage system was included in the project plans to ensure user safety. ACO's KS100 was installed in front of the concession stands to keep the area safe for pedestrian traffic during events. Over 28 meters of KS100 trench drains with Type 480Q grates have been installed.

Benefits

- QuickLok® is a patented boltless locking system that allows for simple grate removal for maintenance. The unique design provides a positive snap-down fit into the locking bar
